SUMMARY

Web Developer with strong foundations in HTML, CSS, JavaScript, and Python. Experienced in building AI-powered full-stack applications with React frontends and FastAPI backends. Currently upskilling in full-stack MERN (MongoDB, Express.js, React.js, Node.js) development with hands-on projects in progress. Finalist in national hackathon and active contributor to data-driven and AI-integrated web solutions. Pursuing B.Tech in Computer Science Engineering (IoT) at RKGIT. Passionate about building scalable, user-focused, and performant web applications.

SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js

Backend & APIs: Python, FastAPI, REST APIs, Uvicorn

Programming & Database: C, C++, Python

Tools & Technologies: Git, GitHub, VS Code, Render

Concepts: Responsive Design, OOP, DBMS, OS, Computer Networks

EXPERIENCE

Data Analytics Intern (Forage)

Feb 2026

Deloitte | Remote

- Performed end-to-end data cleaning, analysis, and interpretation on real business datasets.
- Generated actionable business insights using analytical techniques and data visualization.

PROJECTS

FinSight AI – AI Financial Advisor App

React.js, FastAPI, Groq API, Uvicorn

- Developed a full-stack AI-powered financial advisor web application targeted at students.
- Built responsive React.js frontend with stock tracking, portfolio management, and financial literacy modules.
- Integrated AI chatbot using Groq API to deliver personalized financial insights and recommendations.
- Designed scalable FastAPI backend and deployed production-ready APIs using Uvicorn.

Mood Snap – AI-Powered Emotion Tracker

Python, CNN, Streamlit, Plotly, OpenCV

- Built an AI-based web application to detect and track human emotions in real time using CNN.
- Trained model on the FER-2013 dataset achieving accurate multi-class emotion classification.
- Developed an interactive analytics dashboard using Streamlit and Plotly for real-time data visualization.
- Ensured user data privacy compliance and optimized overall application performance.

CognitiveCoach – AI Mock Interview Platform

Next.js, FastAPI, Google Gemini API, SQLAlchemy

- Developed a full-stack AI-powered mock interview platform for placement preparation.
- Built Next.js frontend with WebRTC video recording and live audio visualization.
- Integrated Google Gemini API for transcription and AI-based interview evaluation.
- Designed FastAPI backend with SQLAlchemy and an offline sandbox mode for demos.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Year of Passing: 2027

Raj Kumar Goel Institute of Technology, Ghaziabad, Uttar Pradesh

Current CGPA: 7.9 / 10

CERTIFICATIONS

- Introduction to Internet of Things – NPTEL
- Python for Data Science – NPTEL
- Python Essentials – Cisco
- Data Analytics Job Simulation – Deloitte

AWARDS & ACHIEVEMENTS

- Finalist (Top 20 out of 500+ participants) – Next Gen Hack National Hackathon (2025)
