

ARYAN AGARWAL

Full-Stack Developer

+91-9149359862 | 33iot2324@rkgit.edu.in | linkedin.com/in/aryan-agarwal-923087360 | github.com/Aryan8538

SUMMARY

Full-Stack Developer with hands-on experience building AI-integrated web applications using the MERN stack and Python-based backends. Architected production-grade systems including a dual-layer AI financial advisor with 100% uptime and an AI mock interview platform with WebRTC video recording. Finalist (Top 20 / 500+) at Next Gen Hack National Hackathon 2025. Pursuing B.Tech in CSE (IoT) at RKGIT. Targeting full-stack, frontend, and SDE roles with a focus on scalable, performant, and user-focused applications.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Responsive Design

Backend & APIs: Node.js, Express.js, FastAPI, Python, REST APIs, Uvicorn

Database: MongoDB, SQL (Basic), SQLAlchemy

AI / ML: Groq API (Llama-3.3), Google Gemini API, OpenCV, CNN, Streamlit

Tools & Platforms: Git, GitHub, VS Code, Vercel, Render, Postman

Concepts: Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks, System Design Fundamentals

EXPERIENCE

GenAI Project Intern

Jun 2026 – Aug 2026

IBM & NASSCOM | Virtual / Remote

- Building a generative AI-powered application as part of a structured virtual project program co-hosted by IBM and NASSCOM.
- Applying LLM integration techniques and prompt engineering to develop real-world AI solutions with practical deliverables.

PROJECTS

FinSight AI – AI Financial Advisor App

React.js, Node.js, Express.js, MongoDB, Groq API, Gemini API

GitHub: github.com/Aryan8538/FinSight-AI | **Live:** fin-sight-ai-black.vercel.app

- Architected a dual-layer AI advisor module using Groq (Llama-3.3) and Gemini (2.5 Flash) APIs with a regex-based rule fallback system, maintaining 100% service uptime across API rate-limit failures and network outages.
- Built an in-memory caching layer with TTL-based key expiration for Finnhub stock data, eliminating redundant calls against a 30 req/min API cap and cutting external network load by over 60%.
- Optimized Express + MongoDB REST endpoints (chat sessions, watchlist, portfolio) to achieve average server response latency of 20–45 ms for authenticated users.
- Delivered a 2,669-line full-stack codebase with React.js frontend, custom CSS, and automated backend unit tests using Node.js native test framework validating core chat flow accuracy.

CognitiveCoach – AI Mock Interview Platform

Next.js, FastAPI, Google Gemini API, SQLAlchemy, WebRTC

GitHub: github.com/Aryan8538/Cognitive-Coach | **Live:** cognitive-coach-one.vercel.app

- Developed a full-stack AI-powered interview platform with Next.js frontend featuring WebRTC video recording, live audio visualization, and real-time feedback.
- Integrated Google Gemini API for automated speech transcription and AI-driven interview evaluation with scoring and improvement suggestions.
- Designed a FastAPI backend with SQLAlchemy ORM for session persistence and built an offline sandbox mode enabling zero-dependency demo functionality.

Mood Snap – AI Emotion Tracker

Python, CNN, Streamlit, Plotly, OpenCV, FER-2013

GitHub: github.com/Aryan8538/Mood-Snap-Calender | **Live:** mood-snap-calender-9cffky5ybyhszcd84zcvjj.streamlit.app

- Built a real-time facial emotion recognition system using a CNN trained on the FER-2013 dataset, achieving accurate multi-class classification across 7 emotion categories.
- Developed an interactive analytics dashboard with Streamlit and Plotly providing users with historical mood trend visualizations and session-level insights.
- Implemented data privacy compliance measures and optimized OpenCV frame processing pipeline for low-latency real-time inference.

Portfolio: github.com/Aryan8538/portfolio

EDUCATION

Bachelor of Technology – Computer Science & Engineering (IoT)

Expected: 2027

Raj Kumar Goel Institute of Technology, Ghaziabad, Uttar Pradesh

Current CGPA: 8.0 / 10

CERTIFICATIONS

- Introduction to Internet of Things – NPTEL
- Python for Data Science – NPTEL
- Python Essentials – Cisco
- Data Analytics Virtual Job Simulation – Deloitte x Forage

AWARDS & ACHIEVEMENTS

- Finalist – Top 20 out of 500+ participants, Next Gen Hack National Hackathon (2025)
